(b) they were not at any place where, or around which within a 10 km radius, during the previous 30 days there has been a case/outbreak of any of the diseases referred to in point II.2.1.

- II.2.10. any transport vehicles or containers in which they were loaded were cleaned and disinfected before loading with an officially authorised disinfectant;
- II.2.11. they were examined by an official veterinarian within 24 hours of loading and showed no clinical sign of disease;
- II.2.12. they have been loaded for dispatch to Great Britain on.....(dd/mm/yyyy) ⁽⁸⁾ in the means of transport described under box reference I.15. that were cleaned and disinfected before loading with an officially authorised disinfectant and so constructed that faeces, urine, litter or fodder could not flow or fall out of the vehicle or container during transportation.

II.3. Animal transport attestation

I, the undersigned official veterinarian, hereby certify, that the animals described above are fit for the intended transport and have been treated before and at the time of loading in accordance with the relevant provisions of Regulation (EC) No 1/2005.

Notes

(*) Those countries subject to the transitional import arrangements include: an EU member State; Liechtenstein; Norway and Switzerland.

References to European Union legislation within this certificate are references to direct EU legislation which has been retained in Great Britain (retained EU law as defined in the European Union (Withdrawal) Act 2018).

References to Great Britain in this certificate include Channel Islands and Isle of Man.

This certificate is meant for live domestic ovine animals (*Ovis aries*) and domestic caprine animals (*Capra hircus*) intended for breeding or production.

After importation the animals must be conveyed without delay to the holding of destination where they shall remain for a minimum period of 30 days before further movement outside the holding, except in the case of a dispatch to a slaughterhouse.

Part I:

- Box reference I.8.: Provide the code of territory as appearing in Part 1 of Annex 1 to Regulation (EU) No 206/2010.
- Box reference I.13.: The assembly centre, if any, must comply with the conditions for its approval, as laid down in Part 5 of Annex 1 to Regulation (EU) No 206/2010.
- Box reference I.15.: Registration number (railway wagons or container and lorries), flight number (aircraft) or name (ship) is to be provided. In case of unloading and reloading, the consignor must inform the BCP of entry into Great Britain.
- Box reference I.16.: Do not use this box until the end of the transitional staging period.
- Box reference I.19.: Use the appropriate HS code: 01.04.10 or 01.04.20.
- Box reference I.23.: For containers or boxes, the container number and the seal number (if applicable) should be included.
- Box reference 1.28.: Identification system. The animals must bear.

An individual number which permits tracing of their premises of origin. Specify the identification system (such as tag, tattoos, brand, chip, transponder) and the anatomic place used in the animal.

An ear tag that includes the ISO code of the exporting country. The individual number must permit tracing of their premises of origin.
