Part II: Certification	II. Health information	II.a. Certificate reference number	II.b.
	<p>II.1. Public Health Attestation</p> <p>I, the undersigned official veterinarian, hereby certify, that the animals described in this certificate:</p> <p>II.1.1 come from a holding which has been free from any official prohibition on health grounds, for the last 42 days in the case of brucellosis, for the last 30 days in the case of anthrax and for the past six months in the case of rabies and, the animals have not been in contact with animals from holdings which did not satisfy these conditions;</p> <p>II.1.2 have not received:</p> <ul style="list-style-type: none"> — any stilbene or thyrostatic substances, — oestrogenic, androgenic, gestagenic or β - agonist substances for purposes other than therapeutic or zootechnic treatment (as defined in Directive 96/22/EC). <p>II.2. Animal Health attestation</p> <p>I, the undersigned official veterinarian, hereby certify, that the animals described above meet the following requirements:</p> <p>II.2.1 they come from the territory with code: (1) which, at the date of issuing this certificate:</p> <ul style="list-style-type: none"> (a) has been free for 24 months from foot-and-mouth disease, for 12 months from rinderpest, African swine fever, classical swine fever, swine vesicular disease and vesicular exanthema, and for 6 months from vesicular stomatitis, and (b) where during the last 12 months, no vaccination against these diseases has been carried out and imports of cloven-hoofed animals vaccinated against these diseases are not permitted; <p>II.2.2 they have remained in the territory described under point II.2.1 since birth, or for at least the last six months before dispatch to the Union and without contact with cloven-hoofed animals imported into this territory less than six months ago;</p> <p>II.2.3 they have remained in the holding described under boxes reference I.11 and I.13 since birth, or for 40 days prior to dispatch, and, during this period, in the holding(s) and in an area with a 10 km radius around the holding(s) of origin, there has been no case/outbreak of the diseases referred to in point II.2.1;</p> <p>II.2.4 A they are not animals to be killed under a national programme for the eradication of diseases, nor they have been vaccinated against the diseases referred to in point II.2.1 and they have been subjected within the past 30 days to a buffered Brucella antigen test for porcine brucellosis with negative results;</p> <p>(2) (3) [II.2.4 B they have been subjected within the past 30 days to a test for swine vesicular disease antibodies and a test for classical swine fever antibodies with negative results in both cases]</p> <p>(2) (4) [II.2.4 C they have been subjected within the past 30 days to a buffered Brucella antigen test for porcine brucellosis with negative results]</p> <p>II.2.5 they come from holdings which:</p> <ul style="list-style-type: none"> (a) are not restricted under a national control and eradication programme for brucellosis, porcine enteroviral encephalomyelitis (Teschen disease), and (b) are included in an official system for notification of these diseases; <p>II.2.6 they are dispatched from the holding described under boxes reference I.11 and I.13 directly to the Union and, until dispatched to the Union:</p> <ul style="list-style-type: none"> (a) they did not come in contact with other cloven-hoofed animals not complying with the health requirements as described in this certificate, and (b) they were not at any place where, or around which within a 10 km radius, during the previous 40 days there has been a case/outbreak of any of the diseases referred to in point II.2.1; 		

COUNTRY		Model SUI	
II.	Health information	II.a. Certificate reference number	II.b.
II.2.7	any transport vehicles or containers in which they were loaded were cleaned and disinfected before loading with an officially authorised disinfectant;		
II.2.8	they were examined by an official veterinarian within 24 hours of loading and showed no clinical sign of disease;		
II.2.9	they have been loaded for dispatch to the Union on (dd/mm/yyyy) ⁽⁵⁾ in the means of transport described under box reference I.15 above that were cleaned and disinfected before loading with an officially authorised disinfectant and so constructed that faeces, urine, litter or fodder could not flow or fall out of the vehicle or container during transportation.		
II.3.	<p>Animal transport attestation</p> <p>I, the undersigned official veterinarian, hereby certify, that the animals described above have been treated before and at the time of loading in accordance with the relevant provisions of Regulation (EC) No 1/2005, in particular as regards watering and feeding, and they are fit for the intended transport.</p>		
(²) (⁶)	<p>[II.4. Specific requirements</p>		
II.4.1	Aujeszký's disease is notifiable in the country referred to in box reference I.7;		
II.4.2	According to official information, no clinical, pathological or serological evidence of Aujeszký's disease has been recorded for the last 12 months in the holding(s) of origin referred to in boxes reference I.11 and I.13, and in an area with a 5 km radius around the holding(s);		
II.4.3	the animals referred to in box reference I.28:		
	(a) prior to dispatch for exportation, have remained since birth in the holding of origin referred to in boxes reference I.11 and I.13 or they have remained in this holding for the last 3 months and in others of equivalent status since birth,		
	(b) have been isolated in accommodation approved by the competent authority for the last 30 days immediately prior to dispatch for export, without direct or indirect contact with other Suidae,		
	(c) have been subjected to an ELISA test for the presence of gI antibody ⁽⁷⁾ on sera taken at least 21 days after entry into isolation, with negative results; and, all animals in isolation have also given negative results to this test, and		
	(d) have not been vaccinated against Aujeszký's disease and have not been in contact with vaccinated animals and the herd of origin has not been vaccinated during the previous 12 months.		
(²) (⁶)	<p>[II.4.4 (further requirements and/or tests)]]</p>		
<p>Notes</p> <p>This certificate is meant for live non-domestic Suidae (<i>Babyrousa</i> spp., <i>Hylochoerus</i> spp., <i>Phacochoerus</i> spp., <i>Potamochoerus</i> spp., and <i>Sus</i> spp.), Tayassuidae (<i>Catagonus</i> spp., <i>Pecari</i> spp., <i>Tayassu</i> spp.) and Tapiridae (<i>Tapirus</i> spp.).</p> <p>After importation the animals must be conveyed without delay to the holding of destination where they shall remain for a minimum period of 30 days before further movement outside the holding, except in the case of a dispatch to a slaughterhouse.</p>
